Actual Size
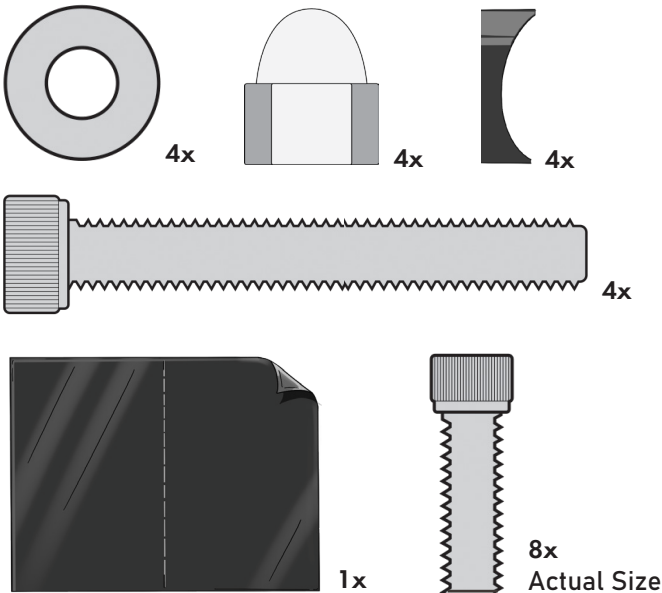

If rough waters are your game, Fishmaster offers additional t-top support with our stabilizer bar. Don't worry, the Fishmaster T-Top is strong as is, but for fisherman that desires to test the waters, you will want to invest in our t-top stabilizer bar. NOTE: ONLY COMPATIBLE WITH ORIGINAL FISHMASTER T-TOP OR OTHER 1.9" T-TOPS.

Step 1: Assemble the Stabilizer Bar

1. Slide the Stabilizer Bar end sections with a cut section of shim stock into the cross tube.

2. Place the Stabilizer Bar into the desired position on the top.

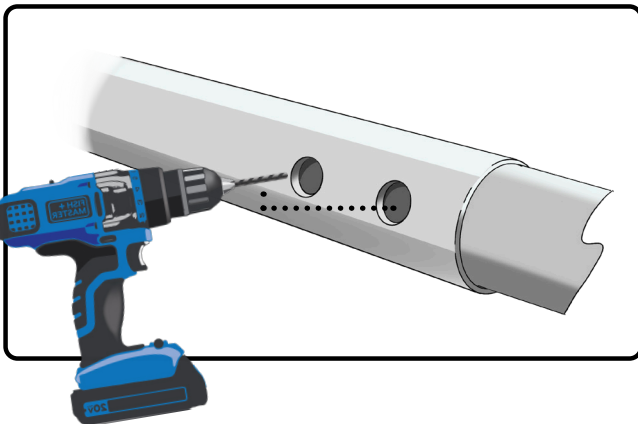

3. Secure one side with the end cap and bolts.

4. Make sure the bar is level before securing the other side.

Step 2: Install Hardware

1. Make sure the bar is centered. Drill out the four holes in the stabilizer bar for the bolts.

2. Install the bolts with the washer, flanges, and nuts then tighten.
